SUB7

The Sub7 has been designed to complement smaller monitors such as the AX-Series. Its small footprint allows for easy placement, even in small environments. The included remote control facilitates volume changes or crossover frequency adjustments from your favorite listening position.

Compact design with no compromises

Equipped with both balanced [XLR] and unbalanced [RCA] input and output connectors, the Sub7 is the perfect to be used in home or studio environments. Numerous control options allow for many and varied adjustments to room acoustics or the satellites used.

The low cutoff frequency of 32 Hz [-3 dB] enables this subwoofer to reproduce even the lowest frequencies with accuracy and realism.

- 5 Year Warranty

Reviews & Testimonials

The sound is amazing, and the bass is really low. I am able to get a better mix on my bass with this sub than I could on any other sub so far. I am very happy with this purchase and hope it last me a long time for my home studio.
